**APOSTILLE SEAL**

For public documents issued in Norway or their official translations that are intended to be used for the Greek Authorities (with the exception of trade-or custom documents), the signature must for the person who has signed the document, must be approved/legalized according to the Haag Convention of 5<sup>th</sup> October 1961.

This happens by putting the "Apostille" under the seal. Responsible authority for doing so is the Governor's office (Fylkesmannen).
